

IMPORT MOVEMENT OF GOLD FROM EUROPE

Treasury Officials Are of Opinion That It Will Approximate \$40,000,000 By Christmas.

Washington, July 10.—Buller is expressed by the treasury officials that the import movement of gold from Europe will approximate \$40,000,000 by Christmas.

During the last fiscal year the United States was drained of coin and bullion to the extent of more than \$50,000,000. It was not thought by the government that the home flow of gold would begin so early, but that it would follow ordinary trade conditions later in the season.

It has been the observation of the treasury experts that foreign banks have been sending to the United States accounts for the inquiries for the precious metal at London.

A good deal of the exportation of gold was due to natural trade operations. Then a large amount was shipped to Argentina. That country shipped a big loan in London some time ago and much of the gold coin was withdrawn from New York because the foreign houses making the loan could secure better terms there. Last fiscal year there was a net loss by the United States in gold coin of \$14,618,882. The total loss of coin by \$14,618,882, which, however, was offset by a net inflow of \$48,815,647. Imports of gold bullion from July to April were \$18,247,686, and exports for the same period, \$27,627,182.

OCTOGENARIAN'S FIRST EXPERIENCE WITH CARS.

Johnstown, Pa., July 11.—Mrs. Elizabeth Shaffer, 83 years old, came to this city yesterday from her home in Stoytown, Somerset county, and for the first time in her life, saw and rode on a trolley car. Exclamations of amazement escaped her as she watched the horseless vehicle run through the streets.

SCIENCE SAVES CHILD FROM DEATH FROM LOCKJAW

New York, July 11.—Science has saved a little 4-year-old boy of Brooklyn from the terrible death of lockjaw. Physicians in the Bushwick hospital are greatly interested in the case which is that of Walter Robinson. About a month ago one of the boy's fingers was injured in a swimming gate in front of his house. Tetanus developed in a few days and the boy was removed to the hospital. His jaws were locked tight and his head and feet were drawn back by the distressing muscular action of the disease. While holding out absolutely no hope for the boy's recovery, the doctors began treating the lad with hypodermic injections of a certain tetanus serum for several days. Gradually the rigidity of the muscles relaxed and last night after 4,000 units of serum had been injected he was able to sit up. Physicians say he will be able to leave the hospital in another week.

PERILOUS EXPERIENCE OF MOTOR BOAT PARTY.

Pittsburg, July 11.—Hanging to a rope which had become fast on the breast of the dam in the Allegheny river at Aspinwall last night, "Young Great," a local boxer, with three friends were in a perilous position. Water surged over them on its 15-foot fall to the lower pool. Several times they were almost torn from their holdings by the force of the water, but were rescued by August Robtson and Willam Mann of Aspinwall, who risked their own lives to reach the men. The motor-boat party were coming down the river and rounded the lock in the dark. When but a few yards from the breast of the dam, the error was discovered, but attempts to reverse the motor were fruitless. The boat was swept to the dam and had not almost a rope was about to plunge the 15 feet when it caught.

FOREST FIRE LOSSES IN WISCONSIN \$3,000,000.

Ray Claire, Wis., July 11.—A survey of districts in northern Wisconsin which have suffered through forest fires brings the estimate of the total damage of the last three weeks to more than three million dollars, divided as follows:

Pierres, north of Eau Claire and Chippewa Falls, \$1,000,000.

Wisconsin Central, \$200,000; companies operating from Marinette, in northern Wisconsin, Wausau and Phillips, \$1,500,000; Washburn and territory north of Ashland and Toward Superior, \$500,000. So far as is definitely known, there was no loss of life. The first have swept through south standing timber, scattered pine and hardwood.

The area burned extends about 50 miles north of Pierres and is about 40 miles wide between Stanley and Thorpe. The heaviest losses are lumber and logging companies. Twenty-five villages in the burned district narrowly escaped destruction. The homes of more than 300 families were burned last week. As the result of the destruction of personal belongings and sources of food supply, the suffering is intense. Much felled timber was destroyed.

ASSIGNEE'S SALE.

Stock and Fixtures For Sale. The undersigned offers for sale the stock of goods and fixtures of the Parthenon Mercantile Co., operating a grocery and general merchandise store at 130 West Second South, Salt Lake City, Utah, together with the lease and the business and lease on the store building.

MERCANTILE (Installment Co.) 74 W. Second South.

Joseph H. Choate to Defend Disbarment Proceedings.

Joseph H. Choate, former president of the American Bar association, former ambassador to England and one of the foremost of American lawyers, is charged with gross neglect in guarding the interests of a client, with deceiving his client as to the result of litigation and the decision of a judge thereto and failing to protect the client's property rights and causing him a loss of from \$500,000 to \$1,000,000. These are some of the specifications contained in the complaint and bill of particulars filed against Mr. Choate by James R. Watts with the American Bar association with the object of having Mr. Choate disbarred. It is the first action of the kind ever brought before that body. The charges will be given a full hearing at the convention of the association to be held in Chattanooga, Tenn., next month.

STEAMER ST. NICOLAS' FIRE EXPERIENCE

For Six Days Five Burned in Her Car. go but Finally She Reached San Francisco in Safety.

San Francisco, July 11.—Blackened and charred, her decks warped by a six days' fire which raged beneath them, the British tramp steamer St. Nicholas sailed through the Golden Gate last evening from Antwerp, from which port she sailed May 3 with a general cargo of 5,000 tons for San Francisco, Portland and Puget sound ports. When 1,300 miles off the South American coast in latitude 14.51 south, longitude 66.39 west, her commander, Capt. George Aiken, just at daybreak on the morning of June 23, discovered smoke pouring from the ventilators. When hatch No. 3 was opened smoke and flames shot up and it was discovered that the cargo in the shelter deck was a seething mass of fire which it seemed impossible to combat.

Chief Officer J. W. Dickinson, Second Officer Arthur Marriott and Third Officer Walter Chavner volunteered to go below with the hose passed along by the crew. With their mouths and nostrils muffled by wet cloths, the volunteers were alternately lowered. Owing to the intense heat and the suffocating smoke, each man could remain below only a few moments. All that day and the following night the fight to save the ship continued. In despair the captain ordered the lifeboats provisioned and trailed astern. Early on the morning of June 24 the fire in the shelter deck was seemingly stamped out and the crew sank exhausted on the decks for a brief rest. At 9 in the morning fire was reported in lower hold No. 2. Two hundred tons of merchandise were thrown overboard before the fire could be reached. Then the steamship were run below and after five days of fighting the flames were finally subdued. The vessel is owned by Rankin, Gilmore & Co. of Liverpool. The total damage is estimated at half a million dollars, mostly covered by insurance.

PREACHED IN THE DARK.

Newcastle, Pa., July 11.—The Rev. F. N. Merrill of the Methodist Episcopal church at Mahonington, advertised that he would preach in the dark last night. The lights were extinguished because of the heat. The church was

MICHIGAN MAN HAS MUSIC FOR COWS.

Detroit, Mich., July 11.—According to advices from Marquette, music has been put to a material use on the dairy farm of John Yongear at Ives Lake. The cows on this farm, it is said, during their confinement these long summer days in tightly screened barns, are relieved of the irksome monotony of cud-chewing and milk-producing by the interspersation of a variety of selections played on a phonograph.

The soothing effects of music, it is claimed, judiciously administered about milking time, have been found to be especially successful with cows under official tests. Several butter records claimed by the farm are credited to the music box.

ROLLED OUT OF BED, FOUND DEAD ON STAIRWAY.

Chicago, July 11.—While sleeping by an open window in his room yesterday, Clay W. Phelps rolled from his bed and fell to the street, three stories below. His body was impaled on an iron stairway guard. When policemen arrived, Phelps was apparently sitting in an upright position, but it was found that he was dead and that pickets of the stairway had entered his side.

NEW EXPERIMENT IN INSURING EMPLOYEES

A Glen Ridge, N. J., Publishing House Insures Life of Every One of Its 150 Hands.

New York, July 11.—A Glen Ridge, N. J., publishing concern has established an innovation in its plant which is being watched by manufacturers and employers of labor generally in New Jersey as well as by the labor unions. The company has insured the life of every one of the 150 men and women employed by it, as a kind of merit system, the policies running from \$250 to \$1,000, according to the value and length of service of the employee insured. In each case, the employee selected the person who was to be the beneficiary and the company paid the premiums and will continue to pay them so long as the employee remains with it. When he leaves or is discharged the policy will be given to him and he may continue it or permit it to lapse.

The policies do not provide for any accidental insurance and the company cannot benefit in any way.

A PORCUPINE FAMILY.

Some workmen who were employed cutting down trees in a wood found a nest of five little porcupines in a little hollow. Seeing neither of the animals' parents and that the little porcupines were hungry, they took them a distance of four miles and presented them to their employer's children, who kindly cared for the animals.

Late in the evening the house dog set up a great howl outside. The girl opened the door, when the excited dog rushed in with a bleeding nose. Close behind a big porcupine walked quickly through the hall. The dog was furious, but the porcupine sniffed her way to the door without heeding the dog at all. The door was open and she trotted through another room to the next door and from there to the box where her babies were. She crawled into the box and laid herself by her little ones, talking soothingly and nursing them to sleep.

The next evening the dog began the same racket, and when the girl went

RICHARD B. HALDANE.

Secretary of War for the British Empire.

out he was rolling a big ball of quills around in great dismay. She took the ball in her apron and carried it to the box. It turned out to be Mr. Porcupine, who also wanted to be with his family. The children took the reunited family to the barn. Here the porcupines seemed happy all winter and were so tame that they often crawled into the

children's laps to be petted. Toward spring the door of the barn was left open one night, and in the morning the porcupine family was missing. How it happened that the door was opened the children never understood, but I think their mother thought the porcupines wanted to be free again—Our Dumb Animals.

Hay's Hair Health

Keeps the Hair from Falling Out

Falling hair is due to lack of nourishment at the hair roots and often to an excess of dandruff on the scalp. Hay's Hair Health Used regularly, invigorates hair roots, cleanses the scalp of dandruff, and in this way stops falling hair and stimulates a healthy growth. "I thought of writing you some time ago about the truly remarkable results I have obtained from the liberal use of Hay's Hair Health. I have only words of praise for such a wonderful remedy. My hair has fallen out at a very early age. Hay's Hair Health, in a very short time, covered my scalp with a splendid growth of hair." CHAS. J. HEDGECOCK, Flint, Mich.
